## Department of Chemical Pathology

From: Prof CWK Lam To: CCE, HCEs  
Hon Chief of Service All COSS  
Department of Chemical Pathology All DOMs and Ward Managers  
Tel/Fax No: 2632-3338 / 2636-5090 NTEC  
Date: 23 June 2004

### SARS-CoV serum RNA test: Further reduction in frequency of testing

In view of the marked decline in the number of requests for the SARS-CoV serum RNA test in the last two weeks, test analysis will be reduced to 2 days per week.

Specimen reception times will remain the same as before:

| Chemical Pathology Laboratory | Monday to Friday | Saturday       |
|-------------------------------|------------------|----------------|
| PWH                           | 9am to 4pm       | 9am to 12 noon |
| AHNS                          | 9am to 3pm       | 9am to 11am    |
| NDH                           | 9am to 3pm       | 9am to 11am    |

Specimens received each day will be processed but analysed only on **Monday and Thursday**.

This new arrangement will be effective from 2 July 2004 (Friday).

Thank you for your kind attention.

C W K Lam
