

Procedure for Requesting Urgent Chemical Pathology Tests

For A&E Patients

1. Use Generic Clinical Request System (GCRS) to request urgent chemical pathology test
(Please select tests from **GCRS A&E Department Folder.**)

Urgent Chemical Pathology Tests in GCRS A&E Department Folder

- Renal and Liver function, plasma, urgent
 - Amylase, plasma, urgent
 - Glucose random, plasma, urgent
 - Creatine Kinase, plasma, urgent
 - Lactate Dehydrogenase, plasma, urgent
 - Bone Profile, plasma, urgent
 - C-Reactive Protein, plasma, urgent
 - Troponin T, plasma, urgent
2. Pack the urgent specimen and a "Red flag" in a single bag, then in a transfer box or pneumatic tube capsule.
 3. Send the urgent specimen to 3/F New Block Rapid Response Laboratory immediately.

For non-A&E Patients

1. Call Urgent Laboratory at Ext. 3353 to obtain an "U number" for booking urgent chemical pathology tests. (see **“Core Laboratory Services - Contact Urgent Laboratory (extension 3353) for expressed result”** for detail.)
2. Mark the "U number" on the urgent specimen and the “Red flag”.
3. Pack the urgent specimen and the "Red flag" in a single bag, then in a transfer box or pneumatic tube capsule.
4. Send the urgent specimen to 3/F New Block Rapid Response Laboratory immediately.

NOTE:

- ◆ Samples sent with "Red flag" but without "U number" will NOT be processed as urgent samples.
- ◆ Do NOT place non-urgent and non-Chemical Pathology specimens in the same bag to avoid any delay in processing of urgent specimens.

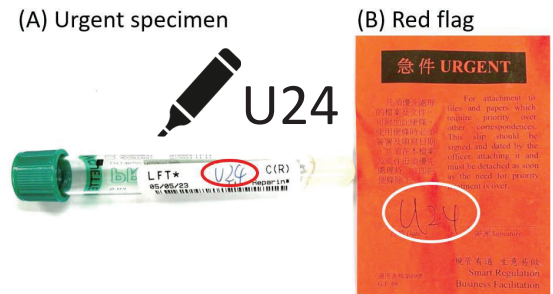

4 Steps to Arrange Urgent Tests 安排緊急標本檢驗的 4 個步驟

Step 1: Call Ext. 3353 to get "U number"
致電內線3353 取 "U 號碼"

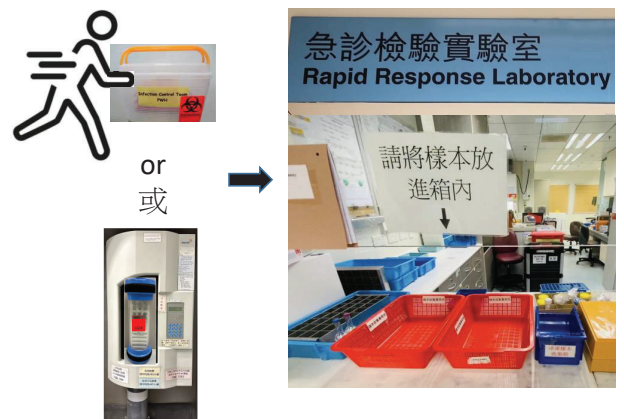

Step 2: Mark "U number" on specimen and red flag
把 "U 號碼" 寫在緊急標本及急件紅旗上

Step 3: Pack urgent specimen and red flag in a single bag, then in a transfer box or a pneumatic tube capsule
獨立包裝緊急標本及急件紅旗，然後放進有蓋手提運送箱或氣動管道運輸系統的膠囊

Step 4: Send specimen to 3/F New Block Rapid Response Laboratory immediately
立刻送遞緊急標本到新大樓 3 樓急診檢驗實驗室

* Do NOT place non-urgent and non-Chemical Pathology specimens in the same bag to avoid any delay
* 請勿放置其他非緊急標本或非化學病理檢驗的標本在同一個膠袋中，以免延誤緊急標本的處理
